-------------	--	----------------	-----------

Minute Minder	Function control lock		
---------------	-----------------------	--	--

BENEFITS

RESULTS. WITHOUT THE GUESSWORK WITH SENSEFRY
 Use the intelligent touchscreen on the SenseFry induction cooktop to select the food and desired result. The technology maintains an even heat to deliver perfectly fried food. No need to adjust the temperature during cooking. And no more guessing when the pan is at the right temperature.

VERSATILITY FOR EVERY PURPOSE
 Preparing many dishes simultaneously, or cooking for a dinner party? FlexiBridge is designed for those occasions when you need more options, less stress and, of course, impressive results. The FlexiBridge feature means you can customize your cooking area, combining up to four segments with consistent, even heat distribution. It accommodates large or long pans and ideal for when cooking several dishes together that need extra space.

ProCook
 At the touch of a button, the FlexiBridge cooking zone switches to three pre-set temperature levels: high, medium and low so you can simply move the pan to seamlessly go from boil to simmer.

COOK WITHOUT DISTRACTIONS
 The handy Hob2Hood feature automatically controls the hood's fan and lights. This saves you getting distracted trying to regulate the fan when you're focused on frying, sautéing, simmering or steaming your dishes on the cooktop. If you'd rather adjust the fan speed yourself, there are manual controls, too. Because this cooktop is flexible like that.

ONE TOUCHSCREEN. TOTAL CONTROL OVER COOKING

The single, full colour touchscreen gives you complete control over the entire cooktop. Monitor live feedback for each zone and tailor the settings to your recipe repertoire. It's an intuitive way to finesse the way you cook with just a touch.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Cooktop type	induction
Materials/Colour	black ceramic glass
Trim finish	bevelled sides only

DIMENSIONS

Total product width (mm)	590
Total product depth (mm)	520
