AEG

8kg 9000 series premium SensiDry heat pump dryer with AbsoluteCare System, 8 energy star rating, ProSense, and Woolmark Blue accreditation.

RRP AUS $2,799.00

Product Details

FEATURES

The gentle way to dry wool
The Woolmark Blue certifies that the most delicate, hand wash safe, woollen garments can be tumble dried.

ProSense auto sensing

Outdoor Program
A specialised outdoor program, which restores water protection to your outerwear, thanks to careful temperature control.

Silk Program
A specialised silk program where garments are held aloft in the cradle movement of the drum to ensure protection of your most delicate fabrics.

LED drum light

OKOFlow single filter system
A single filter that is easy to reach and clean, maintaining drying effectiveness and the energy efficiency of your dryer.

ProTex Soft Drum
Reverse tumbling action ensures better tumbling and airflow resulting in even drying and less creasing.

Full reversible door
Customise to your needs with four different handle positions.

Inverter motor

Auto Off function

BENEFITS

Precise protection for your clothes
Programs in our unique AbsoluteCare System precisely control the movement and temperature of the drying drum. Woollens are kept flat against the drum to replicate flat drying. Outdoor garments are given just the right amount of heat to restore the full functionality of their waterproof membrane. Silks are held aloft in the cradle movement of the drum to protect from damage. Every fabric gets the right drum action and temperature to dry it completely whilst preserving their quality look and feel.

The gentle way to care for wool
The Woolmark Blue certification in drying will treat each item in the gentlest possible manner, meaning you can safely wash and dry all of your hand wash woollen garments.

Safe, low temperatures
SensiDry heat pump technology dries with low temperatures and uses precise sensors to monitor the drying cycle. This ensures that fabrics are never subject to unnecessary heat meaning your clothes will keep the textures they had for longer.

Care for all your fabrics
ProSense technology uses advance humidity and temperature sensors to adjust the drying time and energy consumption to suit individual loads whether its a days or a weeks worth of drying. This saves time and energy whilst gently protecting the clothes that you love and wear every day.

A single filter for high efficiency
AEG dryers come with an efficient, single filter that is easy to reach and clean. The streamlined airflow dries every load seamlessly and maintains the dryers effectiveness and energy efficiency.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Dryer Type	heat pump
Capacity (Kg)	8
Wall mount option	no

DIMENSIONS

Total height (mm)	850
Total width (mm)	600
Total depth (mm)	665

ENERGY

Energy Star Rating	8
Energy consumption (KWhr/yr)	123

CONTROLS

Type of controls	electronic touchscreen,rotary
Options available	delay start,anti-crease,extra silent,time dry,Refresh,Dryness,internal drum light,reverse tumbling action,dryer level settings
Type of display	LCD
Fabric type selection	cotton,synthetics,wool,silk

BUTTON FUNCTIONS

DRYING PROGRAMS

BUTTON FUNCTIONS

Reminder/ Indicators	clean lint filter reminder,empty water container,buzzer,time remaining,program duration,anti-crease phase duration,time dry,child lock,drying,cooling,condenser,degree of dryness,anti crease,Refresh,Eco,Extra silent
Functions	LED drum light
