

10kg 9000 series front load washing machine with 1600rpm spin speed. Wi-Fi connected using AEG app, SoftWater technology, OKOMix, ProSense, Woolmark Green accreditation, and ProSteam.

RRP AUS \$2,799.00

Product Details

FEATURES

SoftWater Technology Removes the minerals from water that can be harsh on fabrics to maintaining the colour, shape and feel of every garment wash after wash.	Ultra quick program Washes 3kg in just 20 minutes	OKOPower Superior cleaning results at lower temperatures in just 59 minutes.	PlusSteam Complete a wash cycle with steam to reduce wrinkles, saving time and reduce the need for ironing.
OKOInverter Motor Similar to professional machines, the OKOInverter brushless inverter motor is quieter and can extend the working life of the motor whilst using less energy.	Time Save Reduces your washing time up to 50% on certain programs for smaller loads saving you energy and time.	Aqua Control System Automatically shuts off the water inlet if a leak is detected in the hose.	XXL Door The new XXL glass door has a larger opening, which makes loading and unloading laundry seamless.
Silk and wool program	10kg wash capacity for large washes	Anti-allergy program	5 Energy star rating

BENEFITS

Look your best, wash after wash
All mains water contains minerals that can be harsh on fabrics. The AEG SoftWater washing machine is the first in the world with technology to remove them. The ion-exchange filtering system optimises the water entering the drum for detergents and softeners to work at maximum efficiency. Gentle enough to keep fabrics feeling soft and colours looking their best.

Every fibre cleaned and protected
Advanced OKOMix technology blends detergents and then softeners with water before they enter the drum. This ensures that every fibre is cleaned and cared for with the right mix of detergent, even for shorter cycles. Every thread, every stitch, every fibre, expertly protected.

Caring for clothes, saving water and energy

ProSense technology intelligent sensors optimises and displays the estimated wash time within 30 seconds of starting the wash cycle. Whether it is a few shirts or your entire weekly laundry, the wash time, water and energy consumption adjust to ensure they are only washed for the exact amount of time required. This ensures that fabrics suffer less wear and tear, maintaining colour and texture.

Keeps your clothes looking and feeling impeccable

The steam refresh program enables you to refresh your garments without washing with detergent and water. This ensures less wear and tear on fibres so they can maintain their look and textures for longer.

The gentle way to care for wool

The Woolmark Green certification in washing will treat each item in the gentlest possible manner, meaning you can safely wash all of your hand wash only woollen garments.
