

# PowerClean| 2889F

Don't let the sleek and lightweight design of the BISSELL® PowerClean™ fool you - this machine is tough on messes that happen on carpet and area rugs.

This lightweight, less than 6 kilo, machine packs a powerful cleaning punch so it's great for smaller living spaces that may have limited storage. Its four-row DeepReach PowerBrush Roll™ works with BISSELL formula to remove messes, dirt and stains that traditional vacuums leave behind and it's so easy to grab if Fido has an accident on the rug or tracks mud in from the backyard. Its two-tank system, means clean water and formula are kept in one tank, while dirty water is pulled into a separate tank, so you never put dirty water back on your carpets or rugs.

When you're done using it, features like the easy-to-remove water tanks and removable nozzle make maintenance simple.

- Tackle Tough Messes. Great for cleaning high traffic areas, small spaces and area rugs where messes happen.
- Lightweight & Powerful. Compact design makes cleaning carpets easy and convenient.
- Two-Tank Technology. Never clean with dirty water, plus they're easy to remove, fill and empty.
- Removable Nozzle. Easily maintain and clean your machine.
