# RF 600mm f/11 IS STM

Compact and lightweight super-telephoto lens for EOS R system cameras

## Super-telephoto shooting made more accessible

RF 600mm f/11 IS STM has been designed to make super-telephoto shooting more accessible and affordable for the EOS R System Cameras. Delivering high image quality in a compact design, it provides the ability to photograph closer to subjects such as wildlife and sport with photogenic image expression from distance.

## Fast response to movement with high-speed Auto Focus

High-speed, high-precision focus drive can be achieved so that fast-moving subjects can be captured without missing the desired moment. The use of a Stepping Motor (STM) achieves quiet and smooth AF during movie shooting.

## Lens control ring for fast intuitive shooting

Equipped with a control ring unique to the RF lenses offering customisable control over shutter speed, ISO or exposure compensation.

## New design

The leather grain finish of the lens barrel enables easy use and prevents slippage, fingerprint smudges, and scratches.

# SPECIFICATIONS

<b>RF 600mm f/11 IS STM</b>	
<b>Mount</b>	RF
<b>Focal Length</b>	600mm
<b>Maximum aperture</b>	f/11
<b>Minimum aperture</b>	(fixed aperture)
<b>Minimum focusing distance</b>	4.5 m
<b>Maximum magnification</b>	0.14x
<b>Lens construction</b>	10 elements in 7 groups
<b>Special glass material</b>	DO lens (Gapless dual-layered diffractive optics)
<b>IS</b>	Yes, 5.0 stops
<b>Focus drive system</b>	Stepping Motor (STM) + lead screw
<b>Filter diameter</b>	82mm
<b>Dimensions</b>	Approx. $\Phi$ 93 mm x approx. 199.5 mm (When retracted) Approx. $\Phi$ 93 mm x approx. 269.5 mm (When shooting)
<b>Weight</b>	930g
<b>Lens Hood</b>	ET-88B (sold separately)
<b>Lens Cap</b>	E-82II (supplied)
