

- Automatic cleaning function integrated in the froth regulating dial to guarantee an easy cleaning of all milk carafe components – so it can be easily turned into fridge after use.
- Wide variety of traditional beverages at the touch of a button: Espresso, Coffee, Cappuccino and Latte Macchiato as originally prepared.
- “MY” function: personalize each beverage adjusting aroma and coffee/milk quantities, to enjoy drinks that perfectly match your taste!
- Intuitive control panel with clear graphic display and touch buttons for the best communication and interaction with the user.
- Cup holder to have your cups always ready.
- Removable brewing unit for easy cleaning and maintenance.
- Drip-tray with removable and dishwasher-safe grid for maximum hygiene and convenience.
- 300gr large beans container.

DINAMICA

LATTECREMA SYSTEM

The LatteCrema System produces a dense and creamy milk froth, with a silky smooth texture at the optimal temperature..

WIDE VARIETY OF DIRECT RECIPES

Wide variety of recipes – select beverages from the direct recipes and menu recipes, whilst the My Menu function allows each recipe to be personalised.

TOUCH CONTROL PANEL

Intuitive control panel with clear graphic display and touch buttons to guarantee a simple and immediate interaction with the final consumer.
