

DENON®

AVR-X580BT  
AV SURROUND RECEIVER

# Quick start guide

# Welcome

Thank you for choosing a Denon AVR.

Use the Setup Assistant function to help configure the settings for this unit when you first set it up.

Follow the guidance displayed on the TV screen connected to this unit to configure the settings.

This manual describes the procedure up until starting the Setup Assistant.

**Please do not return this unit to the store – call for assistance.**

**If you need help... :**

If you need additional help in solving problems, contact Denon customer service in your area.

# Before you begin

## Required for setup

TV

HDMI® cable

Speakers

Speaker cables

Subwoofer cable

- When connecting this unit to a device that is compatible with the Deep Color, 4K, ARC and eARC functions, use a "High Speed HDMI cable with Ethernet" that displays the HDMI logo.
- When connecting this unit to a device that is compatible with 8K and 4K 120Hz video, use a certified "Ultra High Speed HDMI cable". If you use a different HDMI cable, the video may not display or other problems may occur.

## What's in the box

Quick start guide

Cable labels

AM loop antenna

Safety instructions

AVR

Sound calibration microphone

Cautions on using batteries

Power cord

Remote control (RC-1254)

Notes on radio

FM indoor antenna

2× R03/AAA batteries

- Using your own tripod enables settings to be automatically configured to the optimum listening environment, providing exceptionally high performance.

## Attach the included cable labels

The supplied cable labels include labels for the speaker and HDMI cables.

Attach a cable label to each cable that matches the speakers and HDMI devices being connected, as shown below.

This makes it easy to identify and properly connect the cables between your components.

# Setup

## 1 Connect the power cord

Place the AVR near your TV and connect the power cord.

## 2 Connect the AVR to your TV

Using a high quality HDMI cable\*, connect one end to the HDMI port labeled "eARC" or "ARC" on your TV. Connect the other end to the HDMI OUT MONITOR port on your AVR.

### What is ARC and eARC?

Audio Return Channel or "ARC" sends audio back to the AVR using the same HDMI cable that sends video from your AVR to your TV. This allows your AVR to process the sound from your TV's built-in tuner and apps. TVs with an Enhanced Audio Return Channel or "eARC" port provide additional support for high bitrate multichannel audio (Dolby TrueHD and DTS-HD). Please refer to your TV owner's manual for details about eARC support for your particular model.

\* For 4K TVs, we recommend using an HDMI cable labeled "High Speed" and "with Ethernet".

\* For 8K TVs, we recommend using an HDMI cable labeled "Ultra High Speed".

### 3 Turn on the TV

TV remote control

### 4 Select the appropriate HDMI input on your TV

TV remote control

## 5 Install batteries in the AVR remote control

- Batteries can be taken out in reversed order.

## 6 Turn on the AVR

- Press  on the remote control.

## 7 Verify the connection

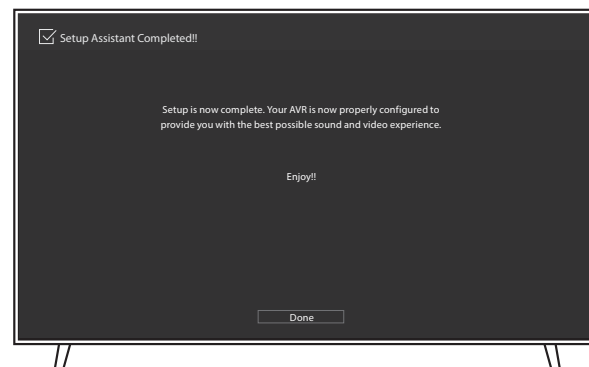

- Verify that you can see this screen on your TV.

If this screen is not displayed, please go back and retry the steps again in the recommended sequence.

## 8 Follow the on-screen Setup Assistant

The TV is now connected to the AVR.  
The Setup Assistant will walk you through connecting and configuring your speakers and components to your Denon AVR. Use the remote control and follow the instructions on the TV screen to complete the AVR settings using the Setup Assistant.

# Playing music - Bluetooth

- 1** Press and hold the Bluetooth button on the remote control for at least 3 seconds to go into pairing mode.

- 2** Activate the Bluetooth settings on your mobile device.

- 3** Select "Denon AVR-X580BT" from the Bluetooth device list on your mobile device.

- 4** When a number appears on the display of this unit, check that it is the same number as that shown on the screen of the Bluetooth device and then select "Pair" for both the Bluetooth device and the unit.

- 5** Play music using any app on your device.

To reconnect a previously paired Bluetooth device, Start at step 2.

# Owner's manual

Refer to the online manual for other functions information and operation procedure details.
