

496L UltimateTaste 500 bottom freezer refrigerator, dark stainless steel

RRP AUS \$2,499.00 AUS \$2,499.00

Product Details

FEATURES

TasteLock Easy-glide crispers

Energy efficiency
Enjoy a big performance without a big bill. Our refrigerators are designed be energy efficient protecting the environment and reducing your power costs.

Mark-resistant real stainless steel finish

FlexStor

FreshPlus Cooling

Keep your ingredients at their fresh flavourful best. When the fridge door is open, the innovative FreshPlus technology immediately begins the recooling process to replace the lost cold air faster when the door closes. This ensures better preservation of farm fresh food and helps minimise waste.

MultiZone Deli compartment
Designed to isolate odours and seal in freshness, discover the perfect place to store your artisan cheeses, cured meats and deli items safely away from other ingredients.

Fast Ice function
When adding a large amount of food to the freezer, simply use the Fast Ice function, which decreases the temperature to -23C for 90 minutes before returning to the pre-set mode.

Boost mode
After a large grocery shop, use the Boost function when adding food to your fridge, so that the temperature decreases for 90 minutes before returning to the pre-set mode.

Drinks chill

Use the handy drinks chill feature to remind yourself when to take your drinks out of the freezer.

Crispers on telescopic runners
Enjoy effortless access to all of your food, even items right at the back of the crisper, with easy-slide runners that fully extend.

TwinTech Cooling System

Multi-function electronic touch controls
Ideally located on the inside of the cabinet, you can set the temperature and use functions such as boost mode, fast ice, holiday mode and drinks chill with just a touch of a button.

Twist ice and serve

With a compact design and two removable ice trays, entertaining is a breeze when you always have ice ready for drinks.

Fridge & freezer door alarm
An alarm sounds if the door is left open to help keep the interior cool and reduce the risk of spoilage.

Holiday mode
Going away? Set the fridge to Holiday Mode to help minimise defrosting and save energy.

R600a refrigerant
Our fridges use R600a, a non-synthetic refrigerant that's more environmentally friendly than the commonly used R134a.

LED Lighting

With our new LED lighting at both the top and sides of the fridge, the light-filled interior illuminates the content of your fridge so you can find anything you need quickly and easily.

Frost free

Save your precious time with a freezer that doesn't ice up and need manual defrosting.

FreshSense deodoriser

The in-built Fresh Sense deodoriser freshens the air and absorbs strong odours like seafood and cheese, to keep your fridge smelling clean and fresh.

BENEFITS

Understanding new capacity and energy ratings

From the 15th August 2021, the way refrigerators are tested to calculate Energy Star Ratings and energy consumption have changed. This means that the capacity and energy rating calculations have changed, however the product remains unchanged. Be sure to check all new ratings to ensure that your comparisons are consistent with the new standards.

Fresh is best

Our innovative TasteLock crispers automatically control the humidity levels to keep your fruit and vegetables at their best for longer. While Easy-glide crisper drawers open effortlessly, even when they're full.

Power saver

Enjoy a big performance without a big bill. Our refrigerators are designed to be energy efficient protecting the environment and reducing your power costs.

Stylish and smart

High quality, mark-resistant real stainless steel, now available in a new chic dark hue or classic natural stainless steel, lends a touch of class to any kitchen. Inside, the generous interior marries innovation and style in equal measure.

Designed just for you

Customise your fridge just the way you want it. FlexStor™ makes it simple to arrange the fridge to your needs with adjustable door bins and shelves. Different sized compartments effortlessly accommodate items big or small.

Keep it cool

The fridge door is one of the most opened in any household, which is why we came up with FreshPlus technology to help maintain the perfect temperature inside your fridge. It automatically detects when it needs to begin cooling, keeping the temperature down to lock the freshness in.

Deli delights

The MultiZone deli compartment lets you indulge in your favourite artisan cheeses and deli delights without leaking odours into other food items.

Increase the chill

With a combination of Fast Ice and Boost mode you will always be prepared when entertaining. After a large shop, Boost Mode increases the chill rate of the refrigerator for 90 minutes whilst the Fast Ice function lowers the freezer to -23C for 12 hours, before returning to their pre-set temperatures, to ensure your produce stays fresher longer.

Effortless access

It is one of the most hardworking appliances in your house, so it makes sense your fridge takes the effort out of simple tasks. Our smooth telescopic runners ensure you can reach the very back of the crisper and freezer drawers easily.

Two coolers. One great result.

Two independent cooling systems are working together to keep your fridge working at its best, every day. One keeps your freezer chilled, the other controls the refrigerator for stable temperature and humidity.

Dimensions

Minimum Recommended Airspaces

If you have a cupboard above the refrigerator with a rear gap of less than 100mm (Y), recommended minimum clearance at the top of the refrigerator increases from 30mm to 70mm (X).

Please note: Doors are designed to sit proud of cabinetry (not flush).

Front face of bench aligned to front corner edge of cabinet.

When positioned in a corner area, spacing of at least 400mm on the hinge side will allow the doors to open enough to enable the removal of bins and shelves.
