Dimensions

Depth	577mm
Height	598mm
Width	597mm

Features & Benefits

Multi-function Flexibility

11 functions including Roast, Pastry Bake and Fan Forced mean no matter what you're cooking, you've got the right heat to match.

Beauty of choice

As much a multi-function oven as a design component, the black built-in oven enhances your kitchen design without dominating it. It's understated and elegant whether on its own or part of a matching appliance set.

Generous capacity

With a generous sized internal cavity, you can create several dishes at once using multiple shelves.

Perfect results

With ActiveVent technology for optimised moisture levels and AeroTech for even heat distribution, you'll get perfect results even when using multiple shelves.

CoolTouch door

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

Cleaning is simple

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Specifications

Accessories	
Contemporary Round Handle Kit	Part 81645
Flat brushed baking tray	•
Flat wire shelf	•
Food probe	•
