Electric Panel Heater Running and Sizing Guidelines

The following information provides guidelines on sizing the correct heater for each individual requirement, in order to achieve the most efficient and economical running cost. On average you will require 100 watts per square metre.

MODEL	SIZE	APPROX RUN COST PER HOUR	ROOM SIZE	ROOM STYLE
7358-3 7358-3T PRO	1000W	15 Cents	10 m ²	Single Bedrooms, Ensuites, Bathrooms & Studies
7358-5 7358-5T PRO	1500W	22.5 Cents	15 m ²	Double Bedrooms, Bathrooms & Home Office
7358-7 7358-7T PRO	2000W	30 Cents	20 m ²	Larger Bedrooms, Living, & Dining Areas
7358-8 7358-8T PRO	2400W	36 Cents	24 m ²	Larger Living Areas & Hallways

Running costs are based on a 50% economy rate and using a tariff of 30 cents per kW hour. For a more accurate operating cost please check your power bill supply charge. Please refer to noirot.com.au for more information.

NOIROT
A warmth you can trust.

The Noirot range features a specially designed finned grill for the efficient and even distribution of heat

Warm air exits at the front of the unit and is directed into the room

Air rises over the internal Monobloc element as it is heated

The Noirot range features rounded edges for safety

As air cools it falls towards the floor and is drawn into the concealed inlet

Convection, not convection

The Noirot Spot Plus range takes advantage of the natural process of convection to make heating your home efficient, effective and totally silent.

Integrated Wi-Fi Timer

Capa Connect is an app that allows control from your smart device, providing convenience and flexibility.

Wi-Fi enabled control can help reduce energy usage and lower heating costs.

NOIROT

Welcome to the start of a warm relationship

Founded in Laon France, Noirot has been warming the hearts and homes of thousands of families for over 75 years. Noirot sits at the very forefront of heating innovation and technology.

The revolutionary **Monobloc heating element is totally silent** and the **non-expanding front panel means no rattles or creaks** whilst you're keeping warm.

Every Noirot panel heater is fitted with a precision thermostat that even after years of functioning maintains the desired temperature within 0.1 degree Celsius, which ultimately leads to reducing your heating costs.

It is this commitment to developing the latest technology and quality that allows us to bring to you our **Noirot Lifetime Replacement Warranty**. Comfort and peace of mind now means Noirot is for life.

Installing Noirot panel heaters is easy and the fittings are unobtrusive. A one piece bracket hidden behind the heater simply clicks in, making removal and cleaning easy. There is also the option of placing your heater on castors, so you can move your Noirot panel heater to wherever you need it the most.

Our extensive range comes in many sizes for all applications both domestically and commercially.

Noirot, a warmth you can trust.

Spot Plus Non Timer Model
