

## 16Kg AddWash™ Front Load Washer

### WF16N8750KV

#### Topline key features / benefits

1. AddWash™ Door
2. Auto Detergent Dispenser
3. Auto Optimal Wash
4. Q-rator Laundry Assistant
5. Additional Cloud Cycles
6. BubbleWash and BubbleSoak
7. XXL 16Kg Capacity
8. 15 Min Quick Wash

#### Key features & message hierarchy

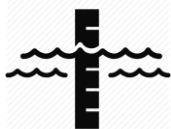

##### Add items during the wash

The AddWash™ door lets you add clothing or fabric softener during the wash, without draining the drum.<sup>1</sup> You can also add hand-washed clothes that you just want to rinse or spin dry. And you can air the drum between washes without leaving the main door open.

##### Measures the right dose every wash

Auto Detergent Dispense weighs each load to measure the right dose of detergent for optimal cleaning while helping to reduce detergent wastage.

##### Does the thinking for you

The Auto Optimal Wash Cycle uses inbuilt sensors to determine how dirty the load is and adjusts the water, detergent and rinsing time accordingly.

##### Smart laundry assistant

Q-rator smart laundry assistant app helps you select the optimal wash cycle for each load and allows you to start, stop and monitor your wash remotely from your smartphone.<sup>2</sup>

##### Access to additional cycles for specialist loads

More choices for outstanding results for your specialist loads. Access additional specialty cloud based cycles from your compatible smartphone to provide an ideal wash cycle for each load.<sup>2</sup>

## Additional Features

### Hard on dirt, soft on clothes

Bubble Wash™ helps generate foam by pre-mixing detergent with air and water from the beginning of the cycle. BubbleSoak™ is an optional pre wash treatment which thoroughly soaks clothes in the bubbles before the wash starts.

### XXL capacity means less loads, more life

Surprisingly large 16Kg capacity means fewer washes and more time for you. You can even fit in all your bedding.

### Stylish design

This black stainless model will immediately modernise your laundry. Its full-width crystal blue door not only looks stylish, but helps makes it easier to load and unload clothes. And the internal drum light helps you see inside so you won't leave items behind.

### Small loads in 15 minutes

No time to waste? The Quick Wash cycle allows you to wash up to 2kg of lightly soiled laundry in 15 min when you're in a hurry.<sup>3</sup>

### VRT Plus low noise

Vibration Reduction Technology Plus is designed to keep the tub balanced and quiet even at high spin speeds, and with different sized loads.

### Better together

Pair with matching dryer DV10R8540GV for complete laundry style and performance.

1. Add Door can be opened at anytime if drum water temperature is below 50°C and has stopped spinning.
2. Compatible device and internet required.
3. The Quick Wash Cycle time can be adjusted for loads 2kg or less, with as little as 15mins for a complete wash cycle for lightly soiled laundry.
4. See warranty card or <http://www.samsung.com/au/support/warranty/> for more information.
