Keep the family organised Family Hub™

1

Make the Family Hub™ the heart of your home and organise like a pro. Keep everybody up to date and on time by sharing schedules, special moments, photos and important news, syncing calendars and much more. From personalised recipe ideas or meal plans to ordering groceries delivered to your door, it's like your personal food concierge. You can also watch TV¹ on the home screen, access apps² on your smartphone or listen to music while spending time in the kitchen³.

Fridge > table fast Autofill Infuser Water Jug

2

Never worry about empty water jugs again! Serve cold water instantly from fridge to table with the convenient BPA free autofill water jug. The jug automatically refills each time it's placed back inside the fridge. Feeling fancy? Add some flavours to the infuser for a refreshing twist⁴

Ice Cubed Baby Dual Ice Maker

3

Make sure you're prepared for any occasion with two different types of ice. The Dual Auto Ice Maker makes both Cubed Ice and Ice Bites™, which chill drinks much faster. It can make up to 2.7kg of ice a day and store up to 3.1kg⁵. As it's in the freezer it frees-up space in the fridge.

Flat Door Outside Water Dispenser Inside. Beverage Centre™

4

We've moved the water dispenser inside for a seamless, flat door design. Located inside the door is the new Beverage Centre™ which is where you can find the autofill water jug, water dispenser and all the drinks storage a family could possibly need.

Flexibly preserve the freshness of food Flex Zone & Flex Crisper

5

Cool Select+ is an independently controlled compartment with five pre-set modes: Freeze, Soft Soft Freeze, Meat/Fish, Fruit/Veggies and Beverage. There's also a Flex Crisper for meat or fish and a Crisper+ for fruit and vegetables.

7

Maintain optimal temperature Metal Cooling Door

Thanks to its high thermal conductivity, the in-door Metal Cooling plate helps the fridge to maintain optimal temperatures.

8

Chill, cool, fresh or frozen Triple Cooling

The fridge, freezer and convertible 4th smart door use 3 independent cooling systems for optimal control of temperature and humidity in each compartment. This helps keep your food fresher for longer⁶, while also preventing the mixing of odours between fresh and frozen food compartments.

9

Designed to impress Premium Flat Door Design

Elegant 'built-in' look thanks to the flat door design for a seamless modern and, high-tech look. Its simple and sleek lines are accentuated by recessed handles.
