MAGIC FILTERS Capture lint & hair

Outstanding lint and hair filtration for both large and small loads, thanks to two large magic filters. Great for pet owners.

Magic Dispenser

Designed to create a powerful vortex that dissolves both liquid and powder detergent, helping it spread evenly through the wash, reducing residue.

Drum Clean

With the push of a button, heat and water (70°C) combined with high-speed RPM help to reduce detergent residue and dirt that forms on the inside surfaces of the washer drum.

INTUITIVE 3-STEP Control Panel

Making it easy to select the right cycle, the new intuitive 3-step control panel is positioned at the back of the machine where it is away from water splashing.

SOFT CLOSE Anti-Slam Lid and Sink

Smart engineering ensures the lid and sink lowers gently and closes quietly to help avoid loud noises caused by slamming.

11 YEAR PARTS WARRANTY on Digital Inverter Motor²

Low fuss for a long time - digital inverter motor with an 11 year parts warranty². The motor works without brushes, which helps to reduce the number of separate moving parts and friction, making for a low vibration motor with a quiet wash cycle.
