

## BESPOKE AI™ 12 kg Washing Machine with AI Wash and AI BubbleWash™

- AI BubbleWash™
- AI Wash
- AI Energy Mode
- QuickDrive™
- Colour: White
- Dimensions:  
(W) 600 mm  
(H) 850 mm  
(D) 695 mm

AI BUBBLEWASH™

AI WASH

AI ENERGY MODE

QUICKDRIVE™

### AI BubbleWash™

Enjoy more effective washing with AI BubbleWash™. It creates bubbles that remove 24% more soil even at low temperatures, while saving energy and ensuring 45.5% better fabric care. It also detects the fabric type and optimises the amount of bubbles, washing time, temperature and spin speed.\*

### AI Energy Mode

Monitor and reduce the washer's energy use. AI Energy mode lets you check the power consumption and estimates your electricity bill. For courses that operate in AI Energy mode it reduces energy use using BubbleWash™ to wash with cool water instead of warm and extra cycle time.\*\*\*

### AI Wash

Wash clothes thoroughly, but gently with less water and detergent. AI Wash uses advanced sensing to detect the weight and softness of the fabric and continually monitor the level of soiling. It then intelligently optimises the water and detergent and the soaking, rinsing and spinning times.\*\*

### QuickDrive™

Spend less time washing. When activated, QuickDrive™ reduces the washing time by 50% without compromising the cleaning performance. Q-Bubble™ technology combines dynamic drum rotation with extra water shots to make abundant bubbles. So detergent penetrates faster and washes quickly and gently.\*\*\*\*

\*AI BubbleWash™ is only activated when specific courses are selected, including Cotton, Synthetics and AI Wash with loads less than 2kg. Based on the Performance Lab Test report by Springboard Engineering on EMPA strips, comparing a normal detergent solution and bubble technology without mechanical action. Individual results may vary. Tested in accordance with IEC 60456-2010 / 4kg Wash Load / Super Eco Wash cold (WF80F5E5U4W) vs. Cotton 40°C without Bubble Wash (WF0702WKU). Individual results may vary. Based on EMPA test of 9kg model(WF906U4SAGD, Synthetics), With or without Bubble. Individual results may vary. \*\*Based on an AI-created algorithm. Actual results may vary depending on individual use. AI Wash holds detergent for up to 1 month's washing, based on the average of 4 loads per week. May vary depending on the washing load and settings. \*\*\*Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Can be applied when the selected washing temperature is 20-40°C. Based on internal testing on the WW11BB944AGB model in normal usage conditions. Results: Power consumption without AI Energy Mode = 0.539 KWh. Power consumption with AI Energy Mode = 0.145 KWh. Results may vary depending on the actual usage conditions. \*\*\*\*Based on internal testing (in accordance with IEC 60456-2010) of the WW9400B Cotton cycle with QuickDrive™ option compared to Cotton cycle without QuickDrive™ option. Result: Wash time reduced by 57% (87 mins to 37 mins). Results may vary depending on the actual usage conditions.
