RRP AUS \$1,189.00

Product Details

FEATURES

A huge 15-place setting capacity

Super fast 30-minute program

Water safety system

Convenient fan drying results

Time remaining display

Height adjustable upper basket

Convenience of delay end

Tablet option

BENEFITS

FlexRack cutlery tray

Not only does our flexible cutlery tray wash all your utensils effectively, it can also safely fit long knives and other larger items. This helps to prevent injuries from steak and chopping knives, while also providing the convenience of a designated place for those bigger utensils. Created to suit your ever-changing needs, the cutlery tray can also be removed partially or taken out all together to fit taller items.

Time Save program

When time is of the essence simply choose the Time Save 50-minute program for guaranteed great results. Perfect for washing load after load, this handy feature gets your dishes clean quickly.

Sensor wash

The Sensor wash feature assesses the load size and level of dirt on the dishes and adjusts the wash cycle to optimise wash results

Water safety system

Our aqua control function is an advanced anti-flood system. Automatically cutting off the water supply to the dishwasher to give you peace of mind knowing your kitchen is protected.

Convenient fan drying results

When your load is finished, you can put your dishes away immediately without having to worry about opening the door to aid drying. That's because our dishwashers feature a fan, which assists the active drying process. The result is dry dishes every time.

FlexZone wash

Every load is different. That's why we created upper, lower or both basket zones to give you the flexibility to wash smaller loads when you need to. Plus, you'll also enjoy the added environmental benefits of saving water and energy.

Hygiene option

Use the Hygiene option to get the perfect hygienic clean on the items that need it most. Ideal for chopping boards, knives and baby products, this clever feature sanitises your wash for pure, fresh results.
