Product highlights

iCareTec smart textile protection

Smart Textile Protection
It guarantees THE perfect temperature for ALL garments with no setting required. In other words, perfect results with less effort.

The world's first 3D BackGlide soleplate
The patented upward curving soleplate guarantees 360° glideability over any fabric and any obstacle – even backwards. Never again will you get stuck on buttons and pockets.

High steam performance
Higher volume of steam compared to a steam iron. Higher pressure to completely permeate the textile with finer steam. Faster to remove wrinkles.

Smoothes perfectly and fast
Even backwards.

Small outside, big inside
Huge tank capacity in a super compact design.

Extra large removable tank
Easy to refill, transport and store. Fewer interruptions for refilling, which makes ironing faster.

50% less time consuming
According to internal laboratory tests, comparing Braun TextStyle 5 steam iron with Braun CareStyle 3.

Eco mode
Enjoy lower power consumption at the push of a button. When you need less steam, like when ironing silk, wool and synthetics – just press the ECO button. You get more than 30% energy saving without compromising on great results.
*In Eco mode (compared to Normal)

Safe on garment
Iron can stay unattended without burning textiles.

CalcClean system
Ensures long-lasting performance from your device. The LED panel alerts you to any build-up of mineral scaling, and the cleaning process is simple and convenient.

Cord storage
For easy transportation and storage CareStyle 3 is equipped with clips on either side to store the power cord and steam cord.

Easy lock system
Easy lock system to store the iron securely and easily.

Technical data

Model	IS 3044
Body colour	White
Tank colour	Transparent
Accent colour	Soft mallow
EAN	8021098280176 (AUNZ)
SAP	0128791609 (AUNZ)
Temperature setting	Automatic (iCareTec)
Digital Anti-drip	●
Eco mode	●
Soleplate	Eloxal 3D
Power	2.400 W
Constant steam	120 g/min
Pressure/Steam shot	6 bar/ 340 g/min
Steam tip	●
Water tank	2 l (removable)
Lock system	●
Continuous refill	●
CalcClean system	●
Power cord length	1.8 m
Double cord length	1.6 m
Cord storage	●
Suitable for tap water	●
Size (without iron)	ca. 36x19x18 cm
Size (with iron)	ca. 36x28x18 cm
Weight	ca. 4.8 kg
