

OB76SDPTDX1

Built-in Oven, 76cm, Pyrolytic, 17 Function, 115L

Series 9 | Contemporary

Featuring a large 115L total capacity and 17 oven functions including pyrolytic self-cleaning. An intuitive, high resolution touchscreen with an accompanying dial makes it easy to use.

Stainless Steel

Dimensions

Depth	608mm
Height	689mm
Width	760mm

Features & Benefits

Cook with confidence

Our touchscreen interface provides an intuitive guided cooking experience that helps deliver perfect results, whether you've been cooking all your life or just starting out. Cook with a favourite method, a hero ingredient, or a go-to cooking function or recipe.

Generous capacity

With its market-leading 115L total capacity, you can create several perfectly cooked dishes at once using multiple shelves.

Exceptional performance

AeroTech circulates heat evenly for a consistent temperature throughout the cavity, helping you ensure perfect results even when cooking on multiple shelves.

Multi-function flexibility

The cooking functions have each been tailored, tested, tweaked and perfected to ensure that no matter what you're cooking, you've got the right heat to match. A food probe precisely monitors cooking in real time, giving you complete control.

Self-cleaning

Our pyrolytic self-cleaning technology breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel coated side racks don't need to be removed when using this function.

Design freedom

Available in an elegant black or a stylish black with stainless steel, this oven is designed to fit seamlessly into your kitchen. Premium materials and detailing to support a cohesive, considered kitchen design.
